## SIEMENS

## Data sheet

## 6GK7242-5DX30-0XE0

product type designation

## CM 1242-5

communications module CM 1242-5; for connection of SIMATIC S7-1200 to PROFIBUS as DP slave module.

| transfer rate  |                                     |  |
|--|-------------------------------------|--|
| transfer rate  |                                     |  |
| <ul> <li>at the 1st interface / according to PROFIBUS</li> </ul>                     | 9.6 kbit/s 12 Mbit/s                |  |
| interfaces   |                                     |  |
| number of interfaces / according to Industrial Ethernet                              | 0                                   |  |
| number of electrical connections   |                                     |  |
| at the 1st interface / according to PROFIBUS   | 1                                   |  |
| • for power supply   | 0                                   |  |
| type of electrical connection<br>• at the 1st interface / according to PROFIBUS      | 0 nin Sub D cooket (DS405)          |  |
| supply voltage, current consumption, power loss                                      | 9-pin Sub-D socket (RS485)          |  |
|  | DC                                  |  |
| type of voltage / of the supply voltage<br>supply voltage / 1 / from backplane bus   | 5 V                                 |  |
| consumed current   | 5 V                                 |  |
| from backplane bus / at DC / at 5 V / typical  | 0.15 A                              |  |
| power loss [W]   | 0.75 W                              |  |
| ambient conditions   |                                     |  |
| ambient temperature  |                                     |  |
| <ul> <li>for vertical installation / during operation</li> </ul>                     | 0 45 °C                             |  |
| <ul> <li>for horizontally arranged busbars / during operation</li> </ul>             | 0 55 °C                             |  |
| <ul> <li>during storage</li> </ul>   | -40 +70 °C                          |  |

| security information  |   |  |
| security information  | Siemens provides products and solutions with industrial security<br>functions that support the secure operation of plants, solutions,<br>machines, equipment and/or networks. They are important components<br>in a holistic industrial security concept. With this in mind, Siemens'<br>products and solutions undergo continuous development. Siemens<br>recommends strongly that you regularly check for product updates. For<br>the secure operation of Siemens products and solutions, it is necessary<br>to take suitable preventive action(e.g. cell protection concept) and<br>integrate each component into a holistic, state-of-the-art industrial<br>security concept. Third-party products that may be in use should also be<br>considered. For more information about industrial security, visit<br>http://www.siemens.com/industrialsecurity. To stay informed about<br>product updates as they occur, sign up for a product-specific newsletter.<br>For more information, visit http://support.automation.siemens.com.<br>(V3.4) |  |
